

Enroll an iPhone on the secure wireless network

Follow the steps below to enroll an iPhone on the secure wireless network. These steps must be performed from the device that you are enrolling!

Please Note This information is based on iOS 9. The steps in this guide may be slightly different depending on the model of phone you have, and the iOS version you are running.

1. Open **Safari** and visit: <http://rite.buffalostate.edu/secure-wireless.html>
2. Tap one of the **Enroll Your Device** links.
3. When the **Welcome to Buffalo State's secure wireless network** screen appears, tap **Continue**.
4. Enter your Buffalo State username and password, tap **Continue**.
5. Tap **Download for iPhone, iPad & iPod**.

6. Tap **Install** on the **Install Profile** screen.
7. Enter your phone's **passcode**.
8. Tap **Install**, tap **Done**.

Your device should now be connected to the **Bengal** wireless network.
